## Notes:

A. Footnotes: The following footnotes correspond with the land use classifications listed in this table:

1. See definition of "agriculture, general" in section [10-03-11](#) of this chapter and section [10-02-15](#), "Land Use Regulations For Animals", of this article.
2. May be permitted as a home occupation.
3. Compatible C-3 commercial uses are permitted in industrial zones fronting on major arterials, minor arterials and collector level streets. For purposes of this chapter, "compatible" shall mean capable of coexisting in harmony.
4. Shall be permitted as an accessory use to an existing public school/educational facility.
5. Shall be permitted as an accessory use to an existing public school/educational facility/church/community center/recreational center. When counting the number of children, the provider's own children are counted toward the allowable total.
6. Shall be permitted as an allowed use in the airport district only if aviation or aeronautical in nature.
7. Shall be approved by the Caldwell city council.

B. Allowed Uses: If a proposed use of property is not specifically listed in this table, the use shall be prohibited unless the planning and zoning director, upon the request of an applicant, determines that a proposed use not listed in this table, is equivalent to a listed permitted or special use. In making the determination, the director shall consider the following:

1. The impacts on public services and activities associated with the proposed use are substantially similar to those of 1 or more of the uses listed in the applicable base districts as allowed;
2. The proposed use shall not involve a higher level of activity or density than 1 or more of the uses listed in the applicable base districts as allowed;
3. The proposed use is consistent with the purpose of the district in which the use is proposed to be located; and
4. The proposed use is in substantial conformance with goals and objectives of the comprehensive plan.  
If the planning and zoning director denies an application for such a requested use, the applicant shall have the right, within the period of 10 days from the date of such disapproval, to appeal the director's decision to the city council. The decision of the city council shall be final.
